CACM columns & single-author articles, January 2020 – December 2024

Terence Kelly tpkelly@acm.org

The three tables below present the same data but with the rows and columns arranged differently. The underlying data pertains to all CACM columns and other single-author articles by all authors with at least four such articles during 2020–2024: 450 articles by 32 authors. Possible sources of inaccuracies/omissions include inconsistencies in author names (e.g., in the use of initials) and, of course, errors on my part. Data from ACM Digital Library 4 April 2025.

Sorted on mean download count

mean download count	number of articles	max download count	author
13,518.3	6	42,024	Poul-Henning Kamp
11,719.9	8	25,346	Jessie Frazelle
11,462.6	22	34,988	Logan Kugler
11,081.6	30	25,081	Moshe Vardi
9,605.4	18	60,805	Esther Shein
9,102.2	4	26,086	Phil Vachon
