Subject: Notice of Determination of “Not Regulated” Status for [HUM00050251]

SUBMISSION INFORMATION:
Title: A study of real-time detection algorithms for encrypted traffic on the Internet
Full Study Title (if applicable):
Study eResearch ID: HUM00050251
Date of this Notification from IRB: 5/23/2011
Date of IRB Not Regulated Determination: 5/20/2011

IRB NOT REGULATED STATUS:

Based on information provided, this study proposes data collection limited to coarse-grained statistics regarding packet contents. Therefore, the activities as described in the application do not meet the regulatory definition of human subjects research under the Common Rule. Further, it appears there are currently no overarching institutional policies, procedures, or approval processes that would guide or govern the data use, retention, and related security and privacy considerations associated with the research activities described in HUM00050251.

Richard Redman
Chair, IRB HSBS
