

# Pixel Spreadsheet

## Test Case “User Three” TEAM CM5

### Tester Info

Name: **Eden Quevedo**  
Job Title: **Tester**  
Manager: **Michael Grande**

Date: **4/20/2011**

### Procedure

- Step 1:** Ask user to run program from flash drive.
- Step 2:** Ask user to pull flash drive out when program GUI loads.
- Step 3:** Ask user to convert image to spreadsheet.
- Step 4:** Asked user to change spreadsheet after short explanation of program.
- Step 5:** Asked user to save, close, then import spreadsheet into the program.
- Step 6:** Asked user to convert spreadsheet to image and save it.
- Step 7:** Asked user to view image.

### Results

**Program failed to show a preview of the image and did not convert the picture to spreadsheet. The image was the flowers image that comes with Windows 7 installations.**

### Comments

**Additional Comments about user: User has Windows 7 x64 and Office 2007.**
