

CS1316 Pair-Programming Agreement

This is an agreement between

Programmer #1 _____
(print name)

Programmer #2 _____
(print name)

As pair programmers, we agree to conduct ourselves according to the principles of pair programming listed below:

(initial by each statement)

#1	#2
_____	_____

We will work together as a pair (simultaneously) on all of the code that will be submitted for pair-programming assignments.

_____	_____
-------	-------

Whenever one partner is programming, the other will act as a navigator with his/her full attention on the assignment (not using another machine to check email, talking on the phone, etc).

_____	_____
-------	-------

One partner will act in the capacity of the driver (the programmer) for a minimum of 30% of the programming time.

_____	_____
-------	-------

One partner will act in the capacity of the navigator (the director) for a minimum of 30% of the programming time

We attest that we will follow rules above and will not violate the Georgia Tech Academic Honor Code or the homework guidelines in CS1316.

Programmer #1 _____	_____
