

foodi

Eat Smarter.

We make it easy for you to eat more sustainably without sacrificing your tastes.

We connect with farmers close to you and help them distribute their surplus crops to households that are looking to eat more sustainably.

All you have to do is go in our app, select the different recipes and foods you like and then we'll do the rest.

- Basketball shoes and jerseys
- Sneakerheads around you!
- Post shoes/jerseys you want/have
- Meet up to exchange
- Check quality in person
- Get to know other sneakerheads in your area with similar taste

Sneakerhead Exchange

By Daniel Chen (dalchen), Discussion 031

Pitch:

Hi, my name is Xiao-Ping Huynh. In a city, not everyone owns a car. If you want to sell your things, and neither you or your buyer have a car, getting them their stuff can be hard. Who wants to carry a mini fridge on the train or bus? That's where Bazaar comes in. Bazaar not only lets you connect to local buyers and work out payment, but also will call a driver to deliver from you to the buyer, saving you more time in your day.

Skip the customer service lines when your flight is interrupted

How many times have you been stuck at the airport due to delays/cancellations?

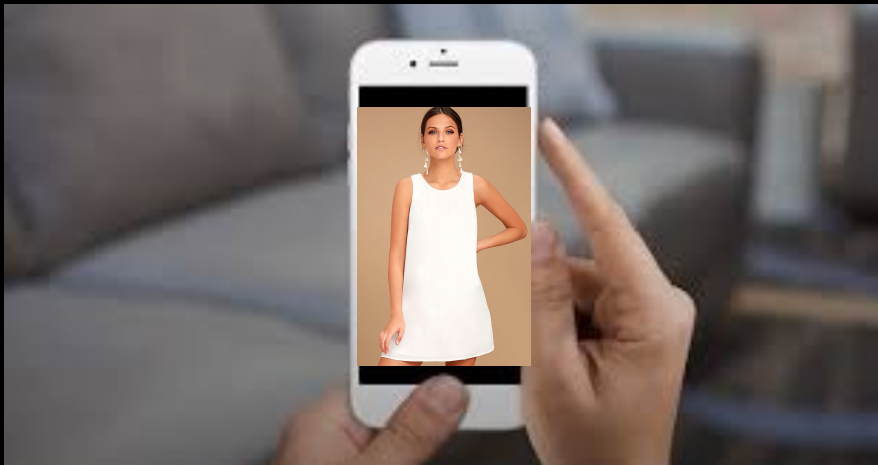

Rather than standing in line for hours and hearing the dreaded “Sorry sir, there is nothing we can do”, there is an alternate way to get to your destination efficiently. By using your airline confirmation code, and last name, this application will instantly rebook you minutes after your cancellation. Often times, the delay between your cancellation and your response is the deciding factor between reaching your destination and getting stranded. This application bridges that gap by using smart algorithms to search and book you on the next available flight free of charge. All you need to do is pay \$5 to use the service, if your flight conflict is not resolved we refund you instantly.

Application targets wide range of travelers from first-time flyers to frequent flyers.

Do you ever walk by someone with cute outfit or any product and wonder where they got it?
Now, all you have to do is take photo!

You take photo and we'll find where you can find the product and the price as well!

Truckr

For local restaurants looking to give more people a taste of their cuisine, Truckr makes it happen with just one tap. Through renting our food trucks that come fully equipped with kitchen equipment, Truckr enables restaurants to “move around” and let more people see what they have to offer. All the restaurant has to do is provide employees and food – Truckr will handle everything else.

roots

for community gardeners with not enough ground but plenty of imagination, roots finds new places to grow

Get Started

connect with a certified landowner near you to start your first garden

Work With Friends

plan with other gardeners in the community to share harvests and water each others' plants

Be Inspired

read and share insight on plants based on the region and the season

Discover

use our augmented reality technology to identify your neighbors' plants

Luca Loncar - LLONCAR - Discussion Section 31

It's 7:52 and the concert starts at 9. It's sold out, but you find a ticket on Facebook for \$50. You don't want to lose \$50 and get scammed, but the seller won't email the ticket without payment.

Enter EscrApp, the fast and integrated escrow app.

1. You pay EscrApp.
2. EscrApp notifies the seller, who sends the item.
3. You tell EscrApp to pay the seller.

Disputes instantly resolved by AI.

Fashion for Unfashionable People

Ever wondered how to put together an outfit out of clothes you already own?

Now, it's easy as 1 - 2 - 3.

1

Input your wardrobe

2

Choose an article of clothing

3

See recommended outfits

Stress-free Event Planning

For your next banquet, convention, or celebration, EZ Events can help you plan the perfect event without all the stress. All it takes is putting in basic information such as expected number of guests or preferred types of food and EZ Events will reserve the perfect venues and catering companies that meet all your needs. With consistent updates each step of the way, EZ Events is here so you can spend less time stressing out and more time enjoying yourself.

SquadSplit

The group splitting app designed for your convenience!

You're having a night on the town with your friends. Alex paid for dinner. Devin paid for the tickets. Taylor paid for the drinks, but you didn't have as much as the others. Tyler paid for the transportation. Simply settle all of your dues in one click with SquadSplit! Put down that calculator and enjoy your night. Upload receipt images as the night goes on. Once the night is over, one click is all you need to square away your charges and keep your friends happy!

(Strategy, for investor: Once SquadSplit gets a foot in the door with groups who often pay each other, approach restaurants for bill splitting and property managers for a platform for their tenants.)

The Holidays have arrived and it's time for you to hit the trail and see the world! You have your flight tickets booked and a list of things you hope to see and do. But has that rainy day spoiled your plans of going to the beach? Are you vegetarian and unable to find a restaurant that best suits your diet? Are you tired of having to constantly jump from Google Maps to Yelp to plan out your trip? Well, you don't have to worry about that with Bon Voyage, a trip itinerary builder that allows you to plan a high-quality vacation quickly and easily! Each day, you can set up a schedule using our mobile calendar and set times when you want to do certain things, like drive, do sightseeing, and eating dinner. There is also a notification system that will alert you of upcoming events in your itinerary. The application also has a map feature that tracks your current location, and you can use that map to find the fastest way to your location without having to jump to Google Maps. Additionally, if there's a high chance of bad weather around an outdoor area depending on the time you want to visit, you will be alerted and some alternate suggestions will show up for you for other top-rated locations not affected by the weather. If you're unsure on what place you want to go to, it's not a problem! You can simply tap the "Travel Suggestions" button and a list of the top-ranked locations based on your current location will pop up on the screen. We also have a feature that allows you to find the best restaurants that satisfy your dietary restrictions and the kind of food you prefer. Just type in any keywords such as "Mexican", "vegetarian", "low cost", etc. and the best restaurants close to your location will pop up with the food that you want! Bon Voyage also has hotel and store features that help you find the closest hotels with the least expense and best hospitality, and the closest stores that have the groceries you're looking for.

Bon Voyage strives to make planning and navigation as simple as possible for travelers and contains features that save users the trouble of going back and forth from app to app and ensures you have quick access to satisfying hospitality, the best restaurants, amusing landmarks, and an unforgettable journey. Bon Voyage - The world is waiting.

SafeTrip

Want to travel the world but don't know which destinations are safe? SafeTrip provides location based safety alerts and recent crime data. It shows crime ratings for global destinations and provides recommendations based on your preferences so you can take the stress out of planning and focus on enjoying your trip instead.

Understory

Understory is an opportunity for already existing Amazon customers who are always seeking the lowest prices on products. Understory allows you to track the price of products listed on Amazon, and will notify you when the prices of your tracked products hit a minimum price. This is different from services like camelcamelcamel, which will only notify you when the price of a product falls below a threshold that you set. Understory is free to download, and collects 1% of each purchase you save on.

QUICKNOTE

- **For** busy Android users
- **Who** enjoy handwritten notes and want their note-taking processes to be more productive.
- **QuickNote** is an efficient note-taking app.
- **That** quickly turns your handwritten figures into texts. All the users need to do is to circle the contents and then tap the screen with their fingers. The app can export the converting text into Grammarly (an online grammar checker) for grammar and spelling checking. To correct a word that is inaccurately recognized, the user just circles it to bring up the suggesting words list and choose the correct one.
- **Unlike** OneNote, Notability, Word, they do support handwriting but cannot effectively organize hand-drawing diagrams and embed soundtracks and videos,
- **QuickNote** can efficiently recognize hand-drawing statistics diagrams, flowcharts; just like converting into text, users circle the diagram they want to convert and then tap the screen. If the texts and shapes do not properly organize, the user can bring up the suggested words list or shapes list and choose the correct one. The user can also choose to keep the pre-converting (original) sketch. The user can also insert video and soundtrack in the note. The app can export the note into .pdf, .ppt, .doc file and so on.
