This is a paper critique template used for . You are expected to read each selected paper and finish the following questions before class. The main goal of writing a critique is for you to understand: (1) Why the authors decide to work on this problem? (**selecting a research topic**) (2) Why the proposed methods are novel and significant? (**novelty of research methods**) (3) How are the contributions evaluated and are the evaluations fair? (**importance of evaluation**) (4) If you were to solve the problem, how would you like to do it differently? (**picking a new angle**) (5) What could be a follow-up project(s) (**a new project**)?

Please limit your answers within one page. (You can use two pages if you're excited and would like to share your ideas.)

Paper title: [fill in the title]

Your name and email: [fill in your first name, last name, and email]

List out two weaknesses of the paper:

Weakness 1:

Weakness 2:

Describe how would you improve on each of the weaknesses:

Improving weakness 1:

Improving weakness 2:

List out two questions you have for this paper:

Question 1:

Question 2:
