	<p>Positive attitude. Engages with every student.</p> <p>Great course that focused on real and applicable skills. The course greatly helped me understand the architecture of Web based technologies and the Web itself. I would recommend this course to anyone interested in the Web.</p> <p>Kevin did a great job teaching this class, and the small scale of the classroom really helped me learn. His education focus was extremely useful in learning the material</p> <p>Professor Angstadt was an excellent, effective, and fair teacher that taught me the most I have ever learned in a class. This is doubly beneficial because of the usefulness of the topic. I would recommend this class to anyone of any level. It was probably among the two most useful classes I have ever taken.</p> <p>The course itself was a lot of fun, but I wish there had been more smaller examples at least given to us to prepare us for the large project in the end. I felt very underprepared when completing it.</p> <p>Excellent course. Partner for final project was incompetent but great at writing for everything else.</p>
