

EECS 583

Final Project Deliverables

University of Michigan

April 3, 2023

Announcements

❖ Homework 2

- » Contest winners announced next Monday in class

❖ Grades

- » All grades posted on canvas (HW1, HW2, Exam)
- » Let us know if you have questions or disagree

❖ Final project demo slots (15 mins per group)

- » Available later this week on EECS 583 calendar (keep an eye on piazza)
- » Apr 17 – 25 (extended from Apr 21)
- » Meet on Zoom, use GSI office hours link
 - <https://umich.zoom.us/j/99972677421>
 - Passcode: eeecs583

Project Demos

- ❖ Each group gets max of 20 mins
 - » Each group member should say something
 - » Timing will be strict due to back-to-back scheduling
 - » Aim for 15 mins + 5 mins Q&A and transition
 - » Pick a slot that the whole team can meet
 - ❖ Recommended format: Combo of slides and some demonstration of your project
 - » Problem that you attacked
 - » What you built
 - » How it works
 - » Results
 - » Demonstration on an example – Live or canned
 - ❖ Success
 - » You successfully built something
 - » What you built works
 - » Demonstrate some benefit on at least 1 [contrived] application
-

Project Report

- ❖ 3-5 pages, 2 column, 10pt font, single space
 - » You can use the figures/graphs from your slides
 - » Report describes problem attacked, some related work, what you did, how it works, and your results
 - » Aditya posted sample on piazza
- ❖ Email pdf of report and demo slides to Aditya and I (put EECS 583 and your group number in the subject!)
- ❖ Deadline
 - » Right after your demo if you can
 - » Final deadline: Apr 25, 5pm.
