    • Exam coming soon

  » Let us know if you have questions or disagree

❖ Final project demo slots (15 mins per group)

  » Available soon on EECS 583 calendar (keep an eye on piazza)

  » Apr 23 – 29

  » Meet on Zoom, use GSI office hours link

    • https://umich.zoom.us/j/99972677421

    • Passcode: eecs583

Project Demos

- ❖ Each group gets max of 15 mins
  - » Each group member should say something
  - » Timing will be strict due to back-to-back scheduling
  - » Aim for 12 mins + 3 mins Q&A and transition
  - » Pick a slot that the whole team can meet
- ❖ Recommended format: Combo of slides and some demonstration of your project
  - » Problem that you attacked
  - » What you built
  - » How it works
  - » Results
  - » Demonstration on an example – Live or canned
- ❖ Success
  - » You successfully built something
  - » What you built works
  - » Demonstrate some benefit on at least 1 [contrived] application

Project Report

- ❖ 3-5 pages, 2 column, 10pt font, single space
  - » You can use the figures/graphs from your slides
  - » Report describes problem attacked, some related work, what you did, how it works, and your results
  - » Great writing not essential
  - » Aditya will post sample on piazza
- ❖ Email pdf of report and demo slides to Aditya, Yunjie, and I (put EECS 583 and your group number in the subject!)
- ❖ Deadline
  - » Right after your demo if you can
  - » Final deadline: Apr 29, midnight
