21. **What are the major strengths of this class? What is helping you to learn? (Q979)**
- The labs and projects are well laid out and easy to follow in a way that they help me learn the concepts as I'm implementing them.
22. **How can Nicole Hamilton improve this class? If possible, give specific examples. (Q980)**
- I don't know how common it is in other classes, but a 5-minute break halfway through the lecture really helps me focus in the remaining time.
23. **Please enter any additional comments you have for Nicole Hamilton. (Q981)**
- It seems like the lecture always gets cutoff by time with 5 or 6 slides left and I think that while every question is answered in depth, sometimes it's too deep where a simple answer would work and that's causing the class to run out of time

 - o Going into more detail conceptually on how everything works is helping me understand just what I'm getting myself into

by majoring in CS. Examples help a lot.

22. How can Nicole Hamilton improve this class? If possible, give specific examples. (Q980)

- Maybe potentially going over the things we'll be seeing in projects (unless that's the job of labs) because most of the things we learn are very top-level, and seeing a few examples or detailed explanation on how to implement concepts would help.

23. Please enter any additional comments you have for Nicole Hamilton. (Q981)

- Is it possible for you to also save whatever you write on the slides? Just wondering.

21. **What are the major strengths of this class? What is helping you to learn? (Q979)**
- I like the online lectures because I can replay things that didn't make sense the first time, or to allow myself more time to take notes and understand the material.
22. **How can Nicole Hamilton improve this class? If possible, give specific examples. (Q980)**
- I think it would be helpful to have homework. Like after each lecture a problem or two to make us utilize what was learned in class that day.
23. **Please enter any additional comments you have for Nicole Hamilton. (Q981)**
- You are amazing! 11/10 teaching, makes it easy to learn.

21. **What are the major strengths of this class? What is helping you to learn? (Q979)**
 - The projects and labs, while really difficult, are definitely a major strength. They allow me to actually use and practice the material we learned, and I actually usually better understand how to use what we learned after/during completing the labs and projects.
22. **How can Nicole Hamilton improve this class? If possible, give specific examples. (Q980)**
 - Perhaps adding a short 3–5 min break halfway through the class period, if possible. 110 minutes is quite a long time to sit and stay focused :)
23. **Please enter any additional comments you have for Nicole Hamilton. (Q981)**
 - I really enjoy your lecture and you are an amazing professor! The way you explain things is very clear and I really appreciate your enthusiasm every day!
