16. **What were the strengths of the course ? (Q953)**
 - ◊ This course felt like a true capstone because the search engine made us use knowledge from other courses, including

about multithreading and sockets from EECS 482 and distributed computing from EECS 491. I learned more about low-level programming than any other course.

17. What suggestions would you make for improving the course ? (Q955)

- ◊ Encourage teams to start earlier, because we kind of ran out of time. If we had one or two more weeks of hardcore development, our search engine would be much better.

18. How might the class climate be made more inclusive of diverse students? (Q910)

- ◊ Maybe go more in depth on distributed computing and cloud deployment.

19. Did everyone on your team get along pretty well?
