ative Feedback

**User Utterance** In [2014] how many jobs did he hold?

**System NLG** find number of employments [Bob] had, prior to [2014]?

**User Feedback** *During 2014, not prior to.*

**User Utterance** Before [September 10th], how many places was [Brad] employed?

**System NLG** find employment [Brad] had, prior to [September 10th]

**User Feedback** *Yes, but I also want you to count how many places Brad was employed at.*

**User Utterance** anytime after [1995], did [Matt] talk to anybody about this at [JP Morgan]?

**System NLG** find communications between [Matt] and people employed at [JP Morgan] about anything, that occurred after [1995]

**User Feedback** *No, I mean about the stock market, not just anything.*

**User Utterance** Do we know if [John] and [Neal] spoke?

**System NLG** find communications between [John] and [Neal] about [the financial reports] at any time

**User Feedback** *I mean about anything, not about the financial reports.*

**User Utterance** what was his last day at [Samsung]?

**System NLG** find when employment of [Andy] at [Samsung] started

**User Feedback** *No, when it ended.*
