Re: Application for the position of tenure-track assistant professor
Search R23012

Dear Madam/Sir,

Please find enclosed my application materials for the position of tenure-track assistant professor in the Computer Science Department. I have spoken to Professor Emery Berger and he has encouraged me to apply.

My areas of interest are programming languages and software engineering, and more specifically in program reliability and error handling. My work draws on program analysis, type systems and language design.

I am a single American citizen.

I have attached:
       Curriculum Vitae, including a list of four references
       Teaching Statement
       Research Statement

I would be grateful if you would consider my application favorably. Thank you.

Sincerely,

Westley Weimer
